Comics Salon

Comics Salon and Anime Show are conventions about anime, manga, cosplay, comics, games, Japanese culture and more. These conventions take place at the House of Culture in Bratislava and it takes three days, Friday to Sunday. This year Comics Salon was from September, 17th to September, 19th.

You can meet people with the same interests you have, talented people, guests or people from other countries. There are shops, games, food stands, archery, falconers, exhibitions of figurines and an artist alley.
There are also competitions, lectures, KPOP showcase, karaoke and sometimes they put on films and anime for people to watch.

One of the KPOP showcase performances.

The cosplay competition on Saturday.

I went there on the day of the eighteenth of November. I departed around 11:30 AM and arrived around 12:35 AM. When I arrived, I went to the outside entrance of the con where I had to show my ticket and my negative covid test. Then they gave me a wrist band on my arm and I went inside to change into my cosplay.

After I changed, I went to check out the place. I also had to wait for my friends for a while but when they came, we could start the real fun. We took some photos and checked some of the shops in there. I bought a lot of stuff, like:

Pocky (a Japanese candy), a plush from a popular game/anime series, stickers, pins and a poster. We took this really nice photos of me, my friends and amazing Genshin Impact cosplayers.

Since we are now in the pandemic, there were some Covid-19 safety rules, you had to wear a mask, disinfect your hands before entering inside and there was a limit of people (2500 people inside and 5000 people outside) basically, the convention was on the OTP mode. But it was still fun and exciting event and I'm planning to go there again next year.

And if you are planning to go there, I hope you will have the same nice experience as I.

Dear Readers!

In September 2021 we decided to write some letters to American students.

Our English teacher Ms.Gabriela Čásarová helped us connect with some American students.

We wanted to find some new friends there so we wrote them about our life in

Slovakia. In the first letter we wrote about our family, pets, school and hobbies.

It was a big fun because they have moos in their towns but in our country

we have only cats, dogs or birds. And sometimes big bears walking down the

street. Now we are going to write them about holidays in November. We

hope that they will write us about Halloween. We are very happy that we found

a lot of friends in America. We hope that our friendship will last forever.

An important event in my life

Mária Sára Kubalová, 8B class

I think that most important event in my life so far has been birth of my siblings. When I was little, I always wanted a sibling. When my mom told me that I was going to have a sibling, I was excited. Even though I was older and didn't want a sibling like I used to. Later my mom delivered a baby and they called from hospital that I had a sister. I was very happy. My sister Aneta was already about 1 year and half old when my mom told me that I would have another sibling. At first, I thought that she was kidding, but when she told me she meant it I almost had a heart attack. I wasn't happy at all. I didn't want another sibling. After a while it my anger stopped. After a few months dad told me it might be a boy. I was disappointed. I wanted another sister. Now I don't mind at all. I'm glad both of them were born.

Veronika Kováčová, 8A class

One of important things in my life is my cat. It is male and his name is Micko. Somebody thinks it is weird for a cat to be your very good friend. But I love my cat. He is 1 year old and he joined our family on December 5, 2019. He came ill and we thought it is a female. But after that a vet came and said it was a tomcat. When we had the online classes and I couldn´t meet with anybody, Micko and I became very good friends. All the time he sleeps on me, bites me and when I say " Micko", he sometimes comes. He usually lies on my exercise books from school. My cat has changed my life, for example I have more love, less stress and so many scratches 😊.
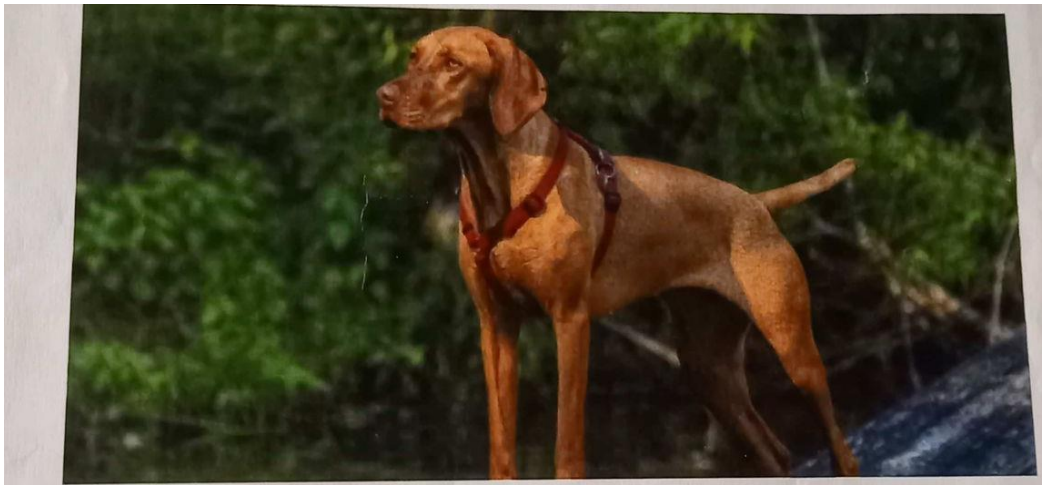

Henrieta Horváthová, 8B class

I wanted to buy a dog for a long time. But my parents said that I was very

young. So I had to wait one more year.

One day my parents took me from school and we went to Senica together.

There I saw four beautiful puppies. Three boys and one girl. I chose one little

boy. His original name is Lombardi but I gave him name Azor. I bought him a lot

of toys. My Dad and me built a dog-kennel for him. I often take Azor for a walk

to our city or to some forests. I also play with him in the garden.

Azor is my best friend forever.

Tech support disaster

By Pavol Šúry, 9B class

Jake is an ordinary boy who likes to play video games. One day he noticed that his console was making funny noises, so he brought it to the tech shop.

"How may I help you?" asked the assistant.

"My console is making weird noises! It sounds like fans. The console is not working properly and it overheats," said Jake.

"Alright, let me take a look at it" said the assistant as he proceeded to take the console apart.

"Oh, my God!" he screamed in a horror after discovering what was inside. "It´s full of moldy cheese - what have you done?!"

"I was eating cheese once and I probably left it on the console for some time, this is really bad…"

Then the assistant said: "Well, I can´t help you with this. It is destroyed and I can´t give you a refund for it."

"It´s alright," said Jake "I ´ll just buy a new one."

He bought a new console and walked out of the shop with a very big frown knowing he just wanted his money because of a small mistake. He was sure he would never put any food on his console again.
